A340E Checkball Locations

Jody Tanner, from the AAMCO center in **Sacramento CA (#22312)**, recently had a late model Toyota 2WD with an A340E transmission.

Jody had a tough time finding the correct checkball locations for this unit. The configuration was different from any in the KwikReference Guide or in any of the other resources.

On the following page you'll find yet another A340E checkball configuration that Jody supplied to us. The AAMCO KwikReference Guide will be updated with this new configuration.

continued...

Thanks Jody!

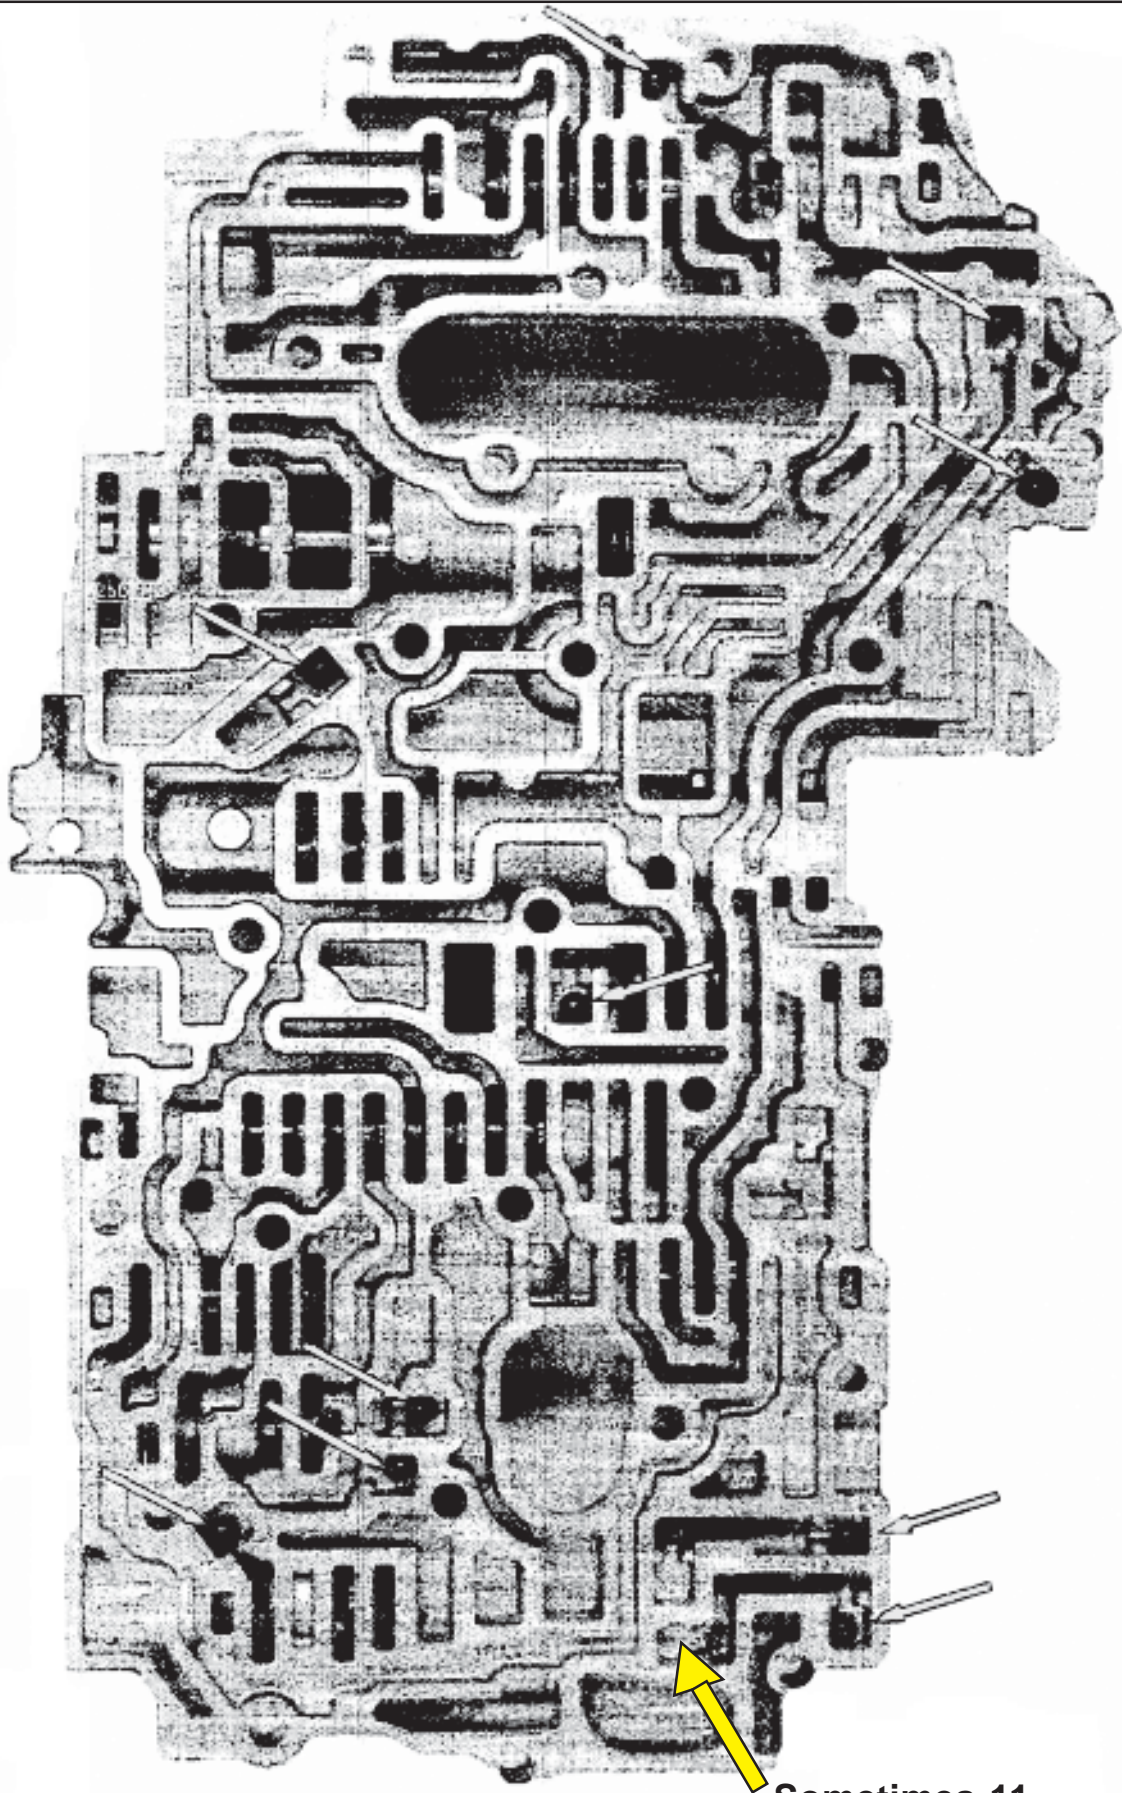

For your tip on yet another A340E Checkball Configuration!

Your \$50.00 check is on the way.
